End of the ice, the beginning of your adventure

ABOUT US

Ruta Leon is local company founded in 2006 by Anita Romero Aguirre, from Guadal, Aysen. Professional in tourism and LNT Master Educator.

This company was born with the aim of contributing to society and our region. I think it is part of the legacy inherited by our ancestors, our families. To me, Ruta León is more than a tourist company, more than tours to the glaciers. The way I experience this company is **the opportunity to highlight the value of our Patagonian culture**. To me, it is the modern way of doing sovereignty. Today, to start a business is a difficult venture, even so, there more experienced companies that have worked for years positioning a destination and our duty as new generations is to contribute and build in an associative way.

Within the most relevant milestones as a company, we can mention actions that have been very favorable for us, such as:

- To apply and obtain multiple public financing (Corfo, Sercotec, Indap).
- To obtain recognition at a regional level in 2019 as a Female Tourist Entrepreneur.
- To be part of the logistics of the national television TVN's show called *La Ruta del Agua*, where we had the honor of assisting the "Ice Mermaid", in icy waters.
- To be an entrepreneur with a touristic quality seal.

We have traveled a hard working and self-management path. We continue working to further position these destinations. We have a group of people who have been important in this growth as a company. I'm talking about family, friends, especially those who accompanied us on the odyssey to have today a boat in Leones Lake.

In these lines I thank everyone linked to our company and I invite tourists to travel the Aysen region with local companies, who give life and a transfer of culture to each one of you.

***Live the Glaciers with Ruta Leon.
A trip with sense and identity.***

Live the best experience in just 30 km from Puerto Tranquilo. This glacier is named after the river that runs directly down the Northern Ice Field, flowing into Lake Chelénko, an inspiring journey that connects you with the beauty of León Glacier.

First you must do a trek through a beautiful native forest of lenga and coigue and walk along the Leones River until you reach the glacier where we contemplate the immensity of Patagonia in one place.

RUTALEON

RUTALEON

EXPLORADORES GLACIER

The Exploradores Glacier is located 52 km from Puerto Río Tranquilo. To the west, the Laguna San Rafael National Park is located. During the trip, you will see incredible lakes. The Tranquilo Lake that flows into the Tranquilo River and the General Carrera Lake, and before entering the ice zone, we will find the Bayo Lake. Then the trekking begins, through native forests, then we cross the moraine and later the clean ice where the adventure begins inside the ice caves.

An unforgettable experience in one of the most easily accessible glaciers in Chile.

Trekking Experience with Ruta León

When we do a tour, we understand that since it is not private, we are going to share this experience with more people. That is why we must ALWAYS be empathic. We all have different times and rhythms. The guide will ensure that we all have a good time.

The "Ice Caverns" formations, which are wonderful, do not depend on companies or guides, but on mother nature. These are formed by climatic factors: water, sun, rain, and wind. Therefore, we can never guarantee that they will be present. If there are formations, it is a fact that we will pass. The guide will also evaluate it.

Departure and arrival times may vary. You have to know that. There are very punctual people who are ready when we pick them up and others who take a few more minutes. We must be flexible, we all want to begin the morning ready to have a great time.

The return time is relative. Sometimes, some of us are tired and we have to walk a bit slower. Let's be supportive.

The climatic factor can prevent you from doing the tour and we must re-schedule. We can notify you from one day to the next, depending on how the weather conditions evolve.

If you have any questions before or after the tour, or any suggestions you want to share, please let us know through our email or the reservation number. There is no other means.

It is your responsibility to read each information that is given to you, in addition to our reservation policy on our website www.rutaleon.com

Remember that it is your vacation, we all want to have a great time. Our guides are professional, they will take care of your safety at all times and that you enjoy the whole trip.

PERSONAL EQUIPMENT

YOU MUST BRING WITH YOU

Raincoat

Sunscreen

Gloves

Sun glasses

INCLUDED IN THE TOUR

Campons

Backpack

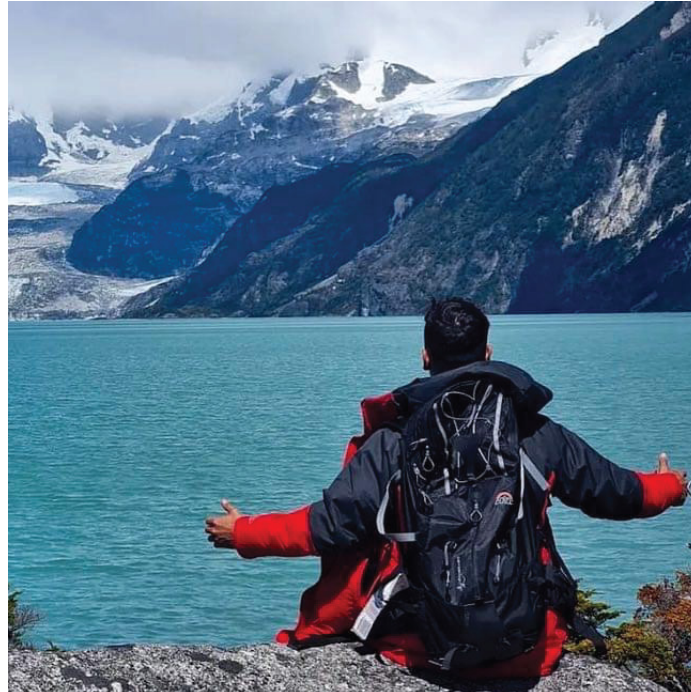

Helmet
